Our Vision

Claim Of Thrones Half Day

Immerse yourself in an event fit for true leaders and true alliances, as you and your fellow house members compete with opposing teams for the honour of the Throne of Steel and to be crowned victors in the final race to Eastaros.

In your houses, you will need to prepare for battle. Every army needs mobility so a sturdy ship must be built and your horses must be trained. Target practice is undertaken and team cohesion must be built. Who will wipe out the other promising kings and queens in the final battle for glory.

To begin the event, each team will be tasked at creating their own team flag to represent their army for the Claim of Thrones.

Decipher the Dialect

Throughout the event, teams will need to complete a pack of puzzles filtered around the culture and language of an ancient dialect. This is a mind boggling challenge which will require an input from all the wise minds available.

Kubb

This is a thousand year old classic Viking game of tactical intimidation and immersive plays. Teams will go head to head, aiming to knock down their opponent's central king. To reach the majestic target, teams must first mow down all of the opposing team's Kubbs, savoring the royal prize until last.

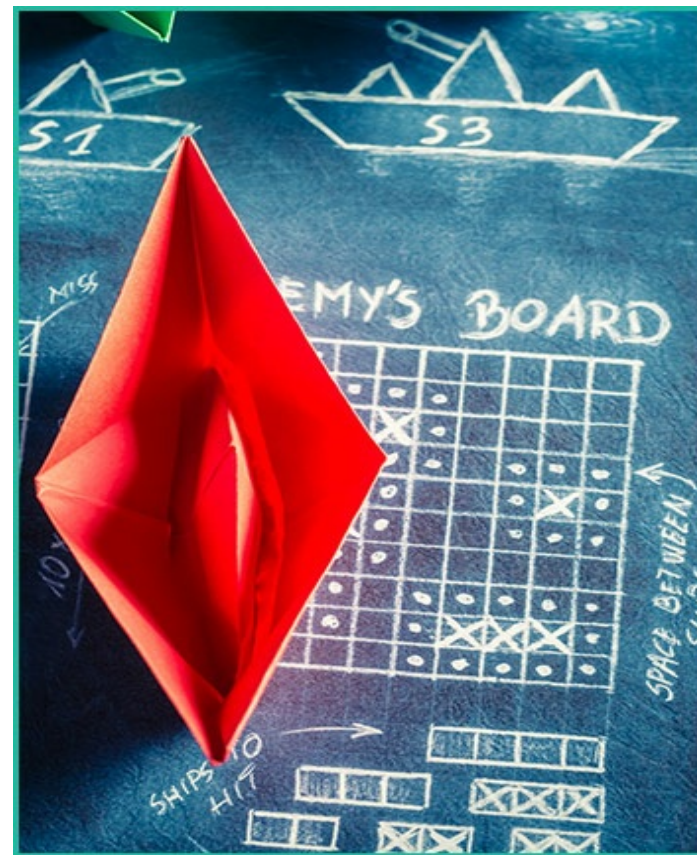

Axe Throwing

Are you ready to channel your inner warrior? This experience is not just the perfect stress-reliever but bags of fun. Get ready to enjoy the thrill of flinging an axe at a target in the great outdoors, as you aim for the all-important bullseye (it's harder than it sounds!)

Armour Acquisition

Teams need to work together to salvage important items washed up from a ship wreck. The items are covered in clues which can be used to decode cyphers. The resulting code will unlock the armour.

Ship Sinkers

A spin on the classic game of battleships as teams must launch ammunition onto the opposing team's waters. They must do this using strategic judgment as the aim is to sink their challengers. Equally they need to plan for their rivals attack by placing their forces in the least targetable positions.
