Our Vision

Motion Machine

Remember making marvellous creations with Meccano? Did you love the classic board game Mousetrap? Relive the glory days of childhood with a team building activity that combines both of these classic games in one ingenious event.

What's Involved?

Teams work together to create a working machine using only their wits and the contents of flight cases supplied by us. Each team's case contains the materials and instructions needed to create their part of their machine. It's a delicate, tricky operation that requires multiple skills. If one part isn't constructed correctly, the whole machine won't work. Roll up your sleeves and race against time to get your bit finished before the whistle blows.

The deadline is strict and teams have just three chances to achieve Motion Machine success. The ultimate goal is to crank the master machine into gear and create a perfect chain reaction.

Good time management, smart planning, delegation, and team work are of the essence. The event ends with a grand finale and a thunderous round of applause!

Motion Machine

Agenda

For this activity we would suggest a running time of 1-2 hours. The exact timings depend on the size of your group.

Venue Requirements

The venue must have convenient parking with direct access to the activity area for unloading our vehicle. The machine will need to be constructed indoors, in a large room with ground floor access.

The Price Tag

Cost: £ + VAT

The price quoted excludes any site fees, parking charges, venue hire and catering costs.
